About Me

Experienced cloud backend software developer with a degree in Computer Science from The Academic College of Tel Aviv-Yaffo and three years of hands-on experience. I have participated in over 20 professional courses during my role as a software developer to continuously enhance my technical and soft skills. Currently, I am seeking a team leader role where I can apply my expertise and drive impactful results.

Education

 Oct 2019 – Oct 2023

B.Sc. Computer Science – *The Academic College Of Tel Aviv – Yaffo*

Included in Dean's List

Experience

 *Check Point Software Technologies*

- **Backend Software Developer – Cloud**

 Oct 2022 – Present (1 Year, 11 Months)

Developed and maintained cutting-edge email security solutions, protecting companies' communications across tools like Microsoft Outlook, Gmail, Teams, Slack, and More. Implemented and owned multiple services from scratch, handling billions of security events weekly in a fast-paced, agile cloud environment. Leveraged AWS services, including DynamoDB, SQS, ElasticSearch, ElasticCache, and more, to build and optimize large-scale, real-time, multi-tenant systems. Collaborated closely with cross-functional teams to design and deliver complex, high-performance microservices, ensuring seamless integration and robust data handling.

Main Projects:

- **Microsoft Office Events** - Developed a service that subscribes to Microsoft and Google APIs, retrieves events via webhook, processes them, and writes billions of events weekly to a database.
- **Email Archiving Service** - Implemented a long-term email archiving solution that handles massive zip files (several terabytes of data), enabling storage and management of millions of emails through an admin portal.

- **Security Analyst - Student Position**

 Dec 2021 – Oct 2022 (11 Months)

Researched and analyzed known vulnerabilities (CVEs) to reproduce attacks and develop protections for Check Point's customers. Developed Python scripts to enhance protection coverage, automate daily tasks, and streamline team workflows. Focused on network attacks, requiring deep knowledge of computer networking.

- **Private Tutor – Self-employed**

C# programming private lessons for High School students

Skills

Technical: Python, SQL, Linux, Computer Networking, Cloud Services (DynamoDB, SQS, ElasticSearch, ElasticCache, etc.), OOP, Git / GitHub.

Interpersonal: Creativity, Motivation, Self-Learning, Teamwork, Responsibility, Problem-Solving.

Army Service

 2016 – 2018

Unit: Givati, **Roles:** Commander, Leader, Assistant.

Skills Mastered: Time Management, Working Under Pressure, Teamwork, Responsibility, Missions Execution.
